

ARKA COTTO 5.8X11.6

ARKA

Arka unfolds like a mineral map, a mosaic of traces where matter tells its own story. Each piece evokes the erosion of stone, the patina of metal and the depth of ancient pigments, as if layers of a forgotten fresco were revealed over time.

Its interplay of satin finishes and shifting tones engages with light, creating atmospheres that change throughout the day. Arka transforms the wall into a contemporary canvas that unites the organic and the urban, a space where geological memory becomes a vibrant, modern aesthetic language.

Arka surge como un mapa mineral, un mosaico de huellas donde la materia cuenta su propia historia. Cada pieza evoca la erosión de la piedra, la pátina del metal y el pigmento ancestral, como si fueran estratos de un fresco antiguo desvelado por el tiempo.

Su juego de superficies satinadas y cromáticas dialoga con la luz, creando atmósferas cambiantes como las de un cuadro abstracto. Arka convierte la pared en un lienzo contemporáneo que conjuga lo orgánico y lo urbano, un espacio donde el pasado geológico se transforma en lenguaje estético actual.
